- **Neatly Concealed Control Panel**
Monitors the lamp life, failure alarm (audible & visible) and total running days of the Radfire UV unit
- **Anti-Tamper Design**
Anti-tamper and childproof lockable lid

1 Sediment Filtration

A washable sediment filter that removes silt, sludge, dirt and rust

2 Taste and Odour Removal

The carbon cartridge reduces taste, odour and chemicals

3 Ultraviolet Protection

Kills 99.9% of bacteria with Radfire ultraviolet technology, a natural purification process that's completely eco-friendly and chemical-free

Puretec Hybrid H7

Enjoy the peace of mind of safe, purified water at every outlet in the house. The Puretec Hybrid H7 system is highly effective and efficient in reducing taste, odour, chemicals and sediment in your water, giving good general purpose filtration. This system eliminates 99.9% bacteria in your water.

Puretec Hybrid H7

Provides safe and purified water at every tap

THE HYBRID H7 KILLS 99.9% OF BACTERIA

Thanks to its advanced UV technology – called Radfire™ – the Hybrid H7 kills 99.9% of tank water bacteria. Nothing else even comes close. Radfire™ is a natural water purification process, that's ecofriendly and completely chemical free. So you get safe, purified water at every outlet in the house.

IT FILTERS YOUR WATER TOO

As its name suggests, the Hybrid combines two technologies to clean your water. In addition to killing 99.9% of bacteria with UV rays, it filters out chemicals, as well as sediment and anything else that manages to pass through your rainwater tank's coarser filter. This not only makes your water taste and smell great, but also prolongs the life of your household appliances.

LONGER FILTER LIFE

Hybrid H7 incorporates Puretec's long life filter technology, so you can go longer between filter replacements, and comes with our 3 Year Platinum Protection Warranty[^].

- ✓ Quick and easy installation
- ✓ Turns your tank and mains water into pure, safe, delicious drinking water
- ✓ Kills 99.9% of bacteria with Radfire™ ultraviolet technology, a natural purification process that's completely eco-friendly and chemical-free
